※ How to call

KOR. → KOR.

Landline Phone: Area Code + Mobile number

KOR. → Intl.

001 + Country Code + [excluding the first '0'] Mobile number

How to active

1. Turn off Wi-Fi and Airplane mode, then turn on cellular Data.
2. Turn off the mobile phone and insert the SIM card.
3. Restart the device at least two times and confirm that the carrier name "KT" is displayed.

- If **No service** is displayed,
Reboot the device until the antenna "KT" is displayed.
- If **No SIM** is displayed instead of the antenna,
Make sure the SIM has been properly installed.
If SIM is still not recognized, the device is likely to be incompatible.

4. If the Carrier is set to "KT" but data connection is still not available,

- iPhone

⇒ Delete the "Profile" on your mobile phone and restart the device
(Settings > General > VPN & Device management > "Profile")

※ Please note that the profile cannot be recovered after it has been deleted.

- Android

⇒ Check the APN setting.
(Settings > Network > Mobile NW > "Access Point Names")

- If the carrier is automatically recognized

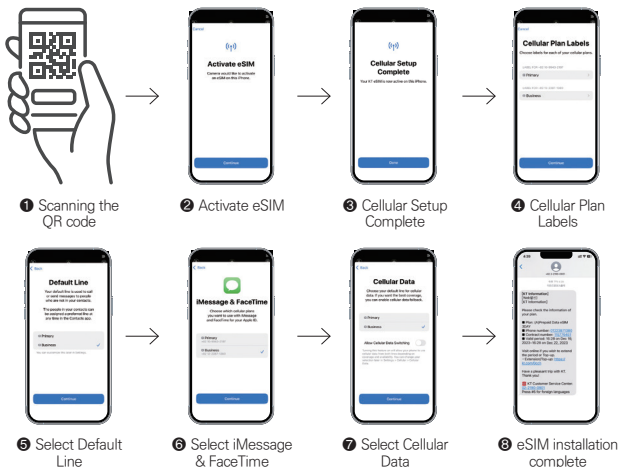

※ Settings > Network > Mobile NW > Access Point Names > KT

- If the carrier is not automatically recognized

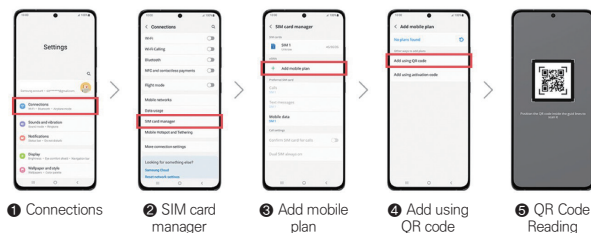

※ Settings > Network > Mobile NW > Access Point Names > new APN
– APN(LTE): lte.ktfwing.com –MCC: 450
– MMSC: https://mmsc.ktfwing.com:9082 –MNC: 08

eSIM QR Scan (Wi-Fi Connection Required)

iPhone

Android

After successful completion of Identity verification (Entry check), your mobile number will be sent via SMS (010).

Things to Check!

● Korea SIM

- The country lock must be turned off in order to use this service.
- This product is available for WCDMA devices. Some 3G mobile devices (LGU+, Japan AU, US. Verizon) might be unavailable.
- Sending international MMS is not available.
- The SIM should be used within 30 days after purchase, otherwise it will be expired. (no refund)
- KT (e)SIM can be extended for up to 90 days from the activation date.
- Extension of product type is **available only for 5/10/20/30 day terms.**
- Once the due date of the product has passed, no additional extension and top-up will be permitted.
- **You can not use personal authentication and other VAS of KT with KT SIM.**
- Outgoing call service should be recharged to make a voice call or sending texts (min. KRW 5,500 ~ max. KRW 55,000)
- If the product has expired, the payments for voice top-up is non-refundable.

● Korea eSIM

- **The eSIM should be installed by QR code scanning within 30 days upon purchase date.** If not installed within 30 days, it will be automatically terminated (no refund)
- KT (e)SIM can be extended for up to 90 days from the activation date.
- **If eSIM is already activated on your device, 'cancellation or device change' is not available.**
- **eSIM can be installed only one time. Do not delete your eSIM after installation on your device.** (New QR code will not be provided if you delete the initial eSIM)
- You can extend the period before expiration date of your product in use.
- Your plan will be activated from the moment of eSIM installation in 24 hour increment.
- **KT eSIM does not support personal authentication and other VAS by KT.**
- **Payments for voice top-up and extension is non-refundable.**
- eSIM will be available, if eSIM IMEI / EID appears by typing *#06# on your mobile keypad.
